

## Brief Company Overview

ERGOSIGN is a specialised provider of user interface design services in the European market. We design and optimise User Interfaces for office, industry and medical applications as well as mobile devices and consumer products. We help our clients to develop competitive-edge user experience (UX) strategies, deliver outstanding user experience and brand recognition.

With a well-founded and proven design methodology and the experience of more than 750 national and international projects, ERGOSIGN masters complex design tasks.

ERGOSIGN GmbH was founded in 2000. With an average growth rate of 15 % p.a. of net revenues over the last three years, ERGOSIGN is one of the fastest growing user interface service providers currently employing about 50 user interface design specialists at its headquarter in Saarbrücken and branch offices in Hamburg and Munich.

### Service Portfolio

- Analysis & Evaluation (User Research, Usability Testing, Expert Reviews, Model-based Analysis)
